

1) On a rainy Saturday, you have \$15 with you. You go to a muffin shop and get a muffin for \$1. For every muffin you get a stamp. The offer is "Get 1 muffin for 3 stamps". What maximum muffins you can plan to eat on that Saturday?

2) Miller has dogs by the name Tommy, Tony and Jimmy. His friend Jack wants to know the ages of the dogs. Miller gives him first pointer.

1) Multiply all the ages = 72.

Jack says this is not enough information to find. Miller gives him a second hint.

2) Addition of all the ages = my unit number.

Jack goes and look out. Finds unit number and says "Do not have enough details to find the answer!".

Miller agrees his statement and gives him the last pointer

3) The oldest of the dogs likes mango-peach-banana biscuit.

Jack is able to find.....

Can you help to find the age please?

3) List top two or three Ted talk or youtube video or any video inspired you till date? Give the URL and state in 1 or 2 lines why?

4) What is Innovation to you? Write your personal thinking only. (Not more than 3 to 10 lines)

5) What is Happiness to you? (Not more than 3 to 10 lines)
